I am very pleased to write this letter of recommendation for Aisha Gump. This serves as part of her application for dental school. As Aisha's instructor for Math 212(Set Theory), I have observed that she is a hardworking and conscientious student. This course was not a requirement for her course, but she simply took it out of because she was intellectually interested with it. He also approached this subject with the very same level of determination and curiosity that he usually applies with her major courses, including medicine and biology.

Aisha's work on exams and problem sets has demonstrated extra careful attention to different details. He was also willing and able to articulate all of her questions regarding abstract notions surrounding set theory, which is a real asset for several of her classmates, as well as the dynamic of the class as a whole. She is one who is very likeable, and still be able to freely express her personal thoughts and opinions about certain matters which may not really be agreeable by everybody.

Aisha is a very personable young lady who also seems as equally comfortable in association with her peers, as well as the school faculty. She has discussed with me all of her plans, especially the one about eventually becoming a dentist, and I have really enjoyed seeing the passion in her eyes, as well as the enthusiasm that is obvious in her as an undergraduate discussing about a professional career in life.

Her commitment to her craft, as well as her hard work in overall pursuing her goals will definitely serve her well in dental school. Please contact me if you have questions about her application. I would be willing to give my support and my time as well.

Sincerely, Kelly Myers, Ph.D

EXAMPLE ONE

To Whom It May Concern:

It is a pleasure to write a recommendation for Ms. XYZ. She was my student majoring in Communication Design in final year session 2003 and now she has become a valuable faculty member in the department of Communication Design, ABC College, Lahore since 2010. Between that period she also achieved a Masters Degree in Multimedia Arts, 2006.

I consider XYZ a natural in the field of communication design. Through her time here she has exhibited the imagination, originality and flair that is required of a person who wishes to be a success in this field. She coupled this natural aptitude very well with a practical and adaptable approach. During this time it became evident to me that XYZ is very perceptive and possesses a wealth of creative abilities. Also, she is always motivated to do something different which is interesting and stimulating for design students. Her approach demonstrates her understanding of the underlying issues of design and design teaching.

XYZ has a great potential to do things very seriously. This is not only because of her natural abilities, but also because of her attitude towards her work. She believes in her work and her ability to excel, but she has never forgotten that it requires a great deal of effort. She is very much clear about her abilities and she is always into trying something new and exploring unusual concepts and materializes them through innovative tools. I think this is a main ingredient of a creative person.

I truly believe that the further specialization will provide her with quality education that will help her realize her potential. She is a very adaptable person with an outgoing, amiable personality. I can recommend her with great confidence for further specialization and advance studies would definitely enhance her creativity and imagination.

Sincerely,

Ms. ABC
